Office Note

Branch General (Education)

Subject Letter No 10099/413 dt the 15th May 1904 from the Dpt of Edn requesting that a grant in aid of Rs 300 may be sanctioned to Mr Kelkar, a distinguished Specialist in hand loom industry to enable him to make a large sizing machine

The following machines are Reported to be required for the weaving industry at busy centres like Bangalore etc

1 Winding machine
2 Warping do
3 Sizing —do—

At present there are English machines for winding and warping but there is none for sizing Mr Kelkar intends to make a large sizing machine, which will cost between Rs 1,200 & 1,500 As he has not got the necessary funds he applies for a grant in aid The Dpt recommends

that a grant of Rs 300 may be sanctioned and paid to him after the completion of the machine. The grant, if sanctioned, will have to be provided in the Industrial School Budget Estimates for 1904-05

This is one of the machines Mr Blanks spoke to me about when he introduced Mr Nelson to me in February last. I did not then quite see the feasibility of the proposal. The machine has yet to be made, & we are not sure that it will be appreciated by the weaving population of Bangalore or that it will be purchased by us for public use. The recommendation seems to me a reasonable one & I should give it my support.

24/5/04

I also can't understand why Sharma is hopeful that Mr. K will implement some useful suggestion. He and we are asked to give a small undertaking, & if the Transvaal Govt has no objection should be handed it is given after the machine is completed and completion guaranteed.

Bangalore

SIR

In continuation of my letter no 10098/412 dated 15th May 1904 I have the honour to inform you that Mr S P Kelkar recommends strongly that winding, warping and sizing machines should be purchased for busy centres like Bangalore, Doddaballapur &c by Government and warps supplied ready made to weavers at cost price In this way the hand loom weavers would get ready made warps, and their whole time could be devoted to weaving alone By this means the income of weavers can be very materially increased English machines for winding and warping are available for purchase, but there is no sizing machine yet made for hand loom warps Mr Kelkar after many attempts succeeded in making a small model machine at Rochdale in England for which he holds testimonials But he has yet to make a large sizing machine which will cost from Rs 1200 to 1500 To enable him to make a satisfactory machine, as his own resources

Read ——

Letter No 10099/413 & the 15th May 1904 from the D of E&A in Mysore, stating that Mr S P Kolkar, a distinguished Specialist in hand loom industry desires to make a large sizing machine for handloom warps ~~for the improvement of the weaving industry~~ at a cost of Rs 1,200 to 1,500 and Requesting that a grant in aid of Rs 300 from the State may be sanctioned to him for the purpose, the amount being included in the Budget Estimates of Industrial and other Special Schools in Mysore for 1904 – 1905

Order thereon

No H3423 13/6/04

In the circumstances stated in the letter read above, I grant on behalf of the Govt, sanction to the payment of Rs 300 out of Local Funds and the same is included in the Budget Estimates for Industrial Schools for 1904-1905. The amount will be paid to Mr Kelkar after the completion of the machine, to the satisfaction of the Govt, or an Engineer appointed by the Govt, as proposed by him on its completion.
